Our Geosoft Brings You All...

eROUTE

↔ Easy Routing***

***GeoMAPS***

An advanced analytical Maps for All kinds of Decision Makers...

For the last few years Geosoft has been delighting it's Customers with great Spatial Solutions and providing best Services in various eminent domains, SAP BI-BO/GIS/GPS/CAD/LBS/RS/Photogrammetry and Related Information Technologies. Geosoft

maintains the highest standards of excellence while satisfying it's clients by providing best service and high product quality through its hi-end systems and well planned Schedule. Geosoft understand its Client's requirements which are matching high performance solutions to various kinds of business goals and operational needs of present days. Geosoft aims to integrate various Geodatabases to plan for Client's bright scope by utilizing easy decision making tools to accomplish various day to day activities. Geosoft is striving to establish various kinds of spatial solutions while developing customized application softwares to increase the volume of it's Clients in India and abroad. The ultimate goal of the Geosoft is to explore the globe and it's various features while making them to various kinds of user defined Geospatial Solutions to fulfill the Client's needs by implementing high end innovative geospatial technologies. Geosoft is striving to bring location data to it's client's by making it easier to visualize, understand and analyze through it's Geospatial Business Intelligence(GBI) and  Location Based Solutions(LBS) domains.

World is on the move of expanding economy. The current extent and positive wave of urbanization in

a young and rapidly rising countries have the potential to launch whole new and unconventional business opportunities in their Cities. Geosoft has been providing the high quality of service and innovation in Transportation and Logistics Domain. Time waits for none. In this Context Geosoft brings you the eRoute for all Bus depots at every Town/City of corresponding Regions or Countries. This eRoute inbuilt Bus can be visible who has been waiting for a Bus at his Bus Stop to reach his desired place all the time. The Significance of Buses is made up of GPS/GNSS/PNT Technology driven eRoute devices which helps you to update the locations of the corresponding Bus location and helps the travellers to reach at their respective Bus Stops smoothly and fast. So, this facilitate the travellers to plan accordingly to reach their destinations in time by any similar E_Route Buses anywhere around the City/Town of corresponding Regions/Countries around the Globe.

The major Inputs for making various Geospatial applications are based on various kinds of Data Sources suchas Closed Sources, Open Sources and capturing the Data in the real world through various kinds of Field Surveys with advanced &

innovative Survey devices. At present the Geospatial Solution's customer momentum, deals the significance of the latest release to enterprises pursuing a digital transformation in Geospatial Business Intelligence domain thru the advancements in various kinds of Network Surveys and it's business insights, and deals the future developments for a desired Location (i.e Neighbourhood/County/City'Region's) for diversified decision makers of various Business ICONS who is newcomers of the particular area or existing business people who wants to change their mode of business from the existing line of business thru our GeoMAPS which have been derived from the various instant scenarios to take informed decisions at the right time, at right place by the right people as ever changing urban population during these days with a past pace. The GeoMAPS also comprises of new simplified view of Geospatial data model for the Geospatial Solution providers and it's outcomes which gives you the various insights from the various Geospatial applications for various types of Clients in our country and around the Globe and also by using advanced Analytical Business Intelligence(BI) Tools in order to take the right decision at right time for various decision makers

of Government , Non Government Divisions and various Corporates of a City/Dist/Town in India and abroad.

Driving Southwest
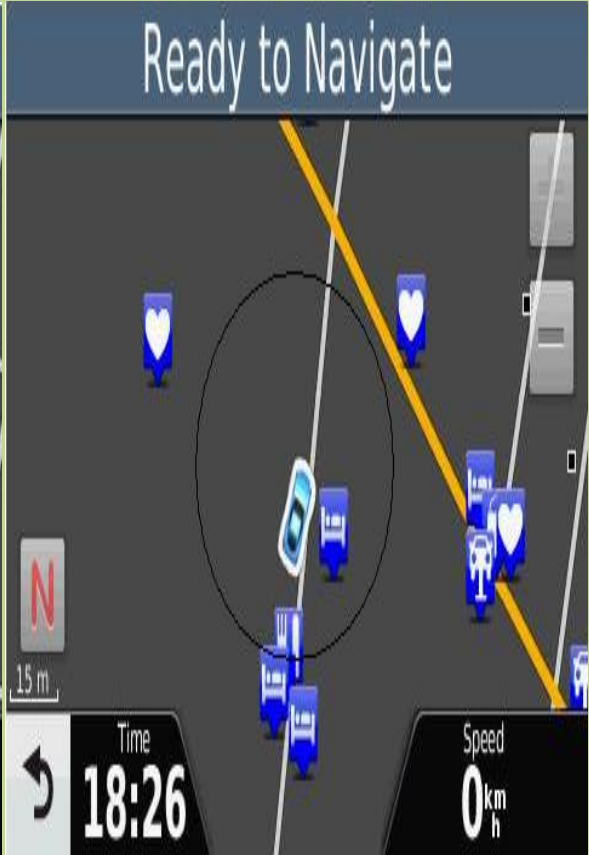

If you are looking for a better partner to add value, capitalize on new opportunities, willing to improve operational efficiencies, reduce your time to market your Products/Solutions and manage budgetary constraints then you need not think beyond Geosoft.

Presently Geosoft is aiming to work with eminent Global Industry Leaders to achieve best customer satisfaction and carryout ultimate services in innovative advanced and emerging technologies(i.e SAP BI-BO/GIS/GPS/CAD/LBS/RS/Photogrammetry) to deliver high Quality products / Solutions in India and Abroad.
