*“Geosoft is a Leading Digital Mapping and GIS/GPS/RS/CAD/LBS/Photogrametry/GeoINT Solution Provider in India. Geosoft has been providing the high quality of service and innovation in Digital Mapping and GBI Domains. Time waits for none. Geosoft is striving to bring Georeferenced location data to it’s client’s by making it easier to visualize, understand and analyze through it’s Geospatial Business Intelligence(GBI) and Location Based Solutions(LBS). Geosoft aims to integrate various Geodatabases to plan for Client's bright scope by utilizing easy decision making tools to accomplish various day to day activities by Decision Makers. Geosoft’s high precision geospatial data acquisition instruments, efficient geo-processing softwares, improved geo-visualization framework and simulators help to create the various roadmaps/Instant Maps for planners and policymakers to examine how well a specific City/Dist/Town/Rural Areas plan is contributing to each and every aspect of sustainability and Safety of urban and rural people who is living in those Cities/Dists/Towns/Rural areas. Geosoft is striving to establish various kinds of spatial solutions while developing customized application softwares to increase the volume of it's Clients in India and abroad by it’s innovative Products and services. In this Context Geosoft brings you the i\_MAP for better and fast planning of every Town/City of corresponding Regions or Countries. The Significance of iMAP is derived thru GIS/GPS/GNSS/PNT Technology based applications in major domains such as POWER, TELECOM, ROAD NW and BOUNDARY NWs of Specific Regions. iMAPS helps you to to take the decisions at right time, right location by the right people instantly. So, these I\_MAPS usage is vast and Mandtory for Govt. and Non Govt Policy holders and Decision Makers and also it can be a usefull geospatial application data driven IMAPS upon land, water or air will boost the Geospatial World”, announced by Geosoft’s Diretor Mr. V.Laxma Reddy, at Hyderabad.*
